8:00pm	Out of the building (lights out)	8:00 pm	Out of the building (lights out)

Contestants are expected to submit their official flight scores immediately after the end of their official flight and must do so before taking their next official flight. The contestant or the timer may bring the scorecard to the scoring table. Failure to return the score card in a timely fashion or taking multiple official flights without submitting for scoring may result in the loss of the flight. Glider events may take up to all 9 official flights in a row before submitting the score card as long as the score card is immediately submitted for scoring when the series of flights are completed. The intent is to keep the official scoring table up to date as much as possible as official flights are being made throughout the duration of the contest so all contestants can see their current standing. This is also intended to prevent the practice of "surprise" official flights suddenly being turned in at the very end of the contest.

All AMA events to be flown per current AMA/FAI rules. AMA/FAI records attempts are also welcome
F1D World Cup event: No rounds will be flown, fly your six flights at any time.
1st, 2nd, and 3rd place ribbons will be presented for the events listed above.
Note: You are welcome to fly other AMA/FAI indoor events not listed above, however scores will not be kept for events which are not listed on the official contest schedule. Scheduled events have airspace priority.

The Kent State Field house is an AMA /FAI Category II site measuring 49 feet in height. The roof is peaked in the middle which makes it an excellent site for setting glider records. Over the years records in F1D, LPP, EZB, HLG, SCLG, UCLG, A6, F1L, F1M, F1N, Cabin, Autogyro, and Ministick have been set at this facility. The floor space is huge! It is a full-size football field surrounded by a six-lane track. It is one of the premiere Cat II indoor sites in the USA and people come from across the USA and from Canada to attend.

All contestants must have a valid AMA license or modeling license of their home country.
Entry Fee: AMA Adult: $200 for the weekend if you pre-register online before April 1st, after will be $225. If you cannot attend for both days, then the cost will be $100/day.
AMA Adults 23yrs and under: $50 for the weekend
AMA Youth Senior/Youth Junior: $35 for the weekend
Contest Online Registration: https://www.indoorffsupply.com/events
Contest Director: Don Slusarczyk, email: dslusarc@gmail.com
Site Address: The field house is located at 2227 Summit St, Kent, OH 44242 and is next to Dix Stadium
Please bring your own tables and chairs if possible as there are a limited number of tables and chairs at the facility.
Helium is not provided for steering balloons.

Note: The men's and women's locker rooms are located on the south wall of the facility. During the contest a team may show up to dress for or to return from their sport. This is generally not an issue however I highly suggest not setting up your model table and planes near the locker room area.
